### INITIATIVE:

Milat Foundation Fellowships:  
The Darrell Milat Scholarship for  
Child Health & Well-being, Justice &  
Child Rights/Protection.

### Who We Are:

The Milat Foundation is a private operating foundation [non-profit charitable organization] devoted to supporting deprived children and their families in Cameroon and around the globe to unlock their full potentials and live their best life stories. We do this through our bold, strategic, sustainable and innovative local empowerment projects and advocacy. We design, prioritise and execute our projects.

Program funding comes from private family funds and are decided in the beginning of each year. This means that the foundation does not rely on external support to finance its projects, but may accept contributions from individuals as well as other organizations with shared mission and vision to extend its reach.
